Vorwort.

Bei der aufserordentlichen Anerkennung und weiten Verbreitung, die Justus Perthes' Taschen-Atlas nicht nur in vielen Schulen, in der Hand des Lehrers wie des Schülers, sondern bei allen Gebildeten gefunden hat, lag der Gedanke nahe, ein ähnliches handliches Hilfsmittel auch für das Gebiet der Geschichte, und zwar zunächst der alten, zu schaffen.

Es wird daher hiermit eine Reihe Karten zur alten Geographie geboten, wie sie in solcher Vollzähligkeit und in gleich klarer, eleganter Ausführung durch Kupferdruck und Handkolorit zu so billigem Preise bisher noch nicht bestand. Die bedeutende Reichhaltigkeit des Inhaltes aber, die keineswegs die Übersicht beeinträchtigt, geht am besten aus dem beigegebenen Namenverzeichnis hervor, welches nicht weniger als 7000 Namen enthält.

Leider war es dem Bearbeiter des kleinen Werkes Prof. Dr. A. van Kampen nicht vergönnt, dessen Fertigstellung mitzuerleben; bei seinem im vorigen Jahre erfolgten frühen Tode lagen zwar sämtliche Kartenblätter im Stich schon weit fortgeschritten vor, doch war noch für alle eine genaue Korrektur und besonders die Anfertigung des Namenverzeichnisses zu besorgen. Dieser Arbeit unterzog sich nach ergangener Aufforderung der Verlagsanstalt der Unterzeichnete, ein dankbarer Schüler und treuergebener Kollege des verstorbenen Verfassers, gern.

Die Korrektur bezog sich notwendigerweise nur auf Beseitigung fehlerhafter Namen und hier und da, wo es der Raum gestattete, auf Hinzufügung einiger aus historischen Gründen wichtiger Ortsbezeichnungen. Für die Aufstellung der einzelnen Karten, den Maßstab und die Auswahl des Stoffes ist der Unterzeichnete also nicht verantwortlich. Die Leichtigkeit des Auffindens soll das Namenverzeichnis fördern, das jeden auf der Karte eingezeichneten Namen mit Angabe der Kartennummer und des Feldes, in dem er zu suchen ist, enthält. Bei Namen derselben Örtlichkeit, die sich auf mehreren Karten wiederholen, ist in der Regel nur auf die in gröfserem Maßstabe ge-

haltene verwiesen. Den einzelnen Namen ist aufser den unten angegebenen abgekürzten Erklärungen noch der Name der Landschaft hinzugefügt, in welcher der betreffende Ort oder Flufs u. s. w. sich befindet, ein Verfahren, das namentlich bei den nicht wenigen gleichen Bezeichnungen verschiedener Örtlichkeiten das Finden der gerade gewünschten wesentlich erleichtert. Am Schlusse sind noch die von van Kampen auf der Tabula Peutingeriana ausgewählten Namen alphabetisch aufgezählt, und zwar in der Orthographie und (nach dem Vorschlage K. Millers, Die Weltkarte des Castorius, Text p. 103) auch im Kasus der Tabula, da die Nominativform oft zweifelhaft ist, in vielen Fällen in der Volkssprache überhaupt nicht existiert hat.

Möge sich der kleine Atlas antiquus in weiten Kreisen viele Freunde erwerben!

Gotha, Oktober 1892.

Dr. Max Schneider.

Abkürzungen.

aest. = aestuarium.
camp. = campus.
fl. = fluvius.
fr. = fretum.
ins. = insula.
lac. = lacus.
m. = mons.
ms. = montes.
mon. = monumentum.
op. = oppidum.
paenins. = paeninsula.
pal. = palus.
pop. = populus.
pr. = promontorium.
prov. = provincia.
rg. = regio.
riv. = rivus.
sin. = sinus.
templ. = templum.

cf. = confer.
p. = prope.
s. = sive.

GOTHA: JUSTUS PERTHES

TABULA PEUTINGERIANA.

Tabula nostra, quae nunc Vindobonae in bibliotheca Imperatoria conservatur, saeculi XVI a Conrado Celtes Colmari inventa, tum Peutingero (Aug. Vindel.) testamento legata est. Segmentorum XII primum non iam exstat. Cetera singula altitudine cm. 34, longa cm. 59-65. Tota tabula met. 6 cm. 82 longa est. Praeter ea nomina, quae in hac effigie deminuta inveniuntur, locorum in ipsa tabula certis signis adpictorum innumera alia viis adscripta sunt, quibus, additis intervallorum mensuris, singula oppida conjuncta sunt. Dubium non est, quin Tab. Peut. saec. XIII ex vetustiore quodam exemplari sit descripta.

SEGMENTUM I temporum iniquitate periit.

II. III. IV.a

IV.b V. VI. VII.a

VII.b VIII. IX. X.a
